Helping Moreland become Energy Smart

Moreland Energy Foundation

www.mefl.com.au

ph. 9381 1722

A Guide for residents

Summer edition

08/09

The following list of businesses has been collated to help Moreland residents find products and services which can help implement energy savings at home.

Although great care has been taken to select the best businesses in each sector, we acknowledge that businesses change over time and service quality is not necessarily consistent. Therefore MEFL cannot endorse or guarantee the products or services of these businesses and we recommend you exercise full discretion in selecting the provider of the products and services which meets your needs.

We welcome feedback on this guide and the products / services supplied through these businesses. We are also interested to hear about other businesses we should consider including in the network. Contact 9381 1722 for more information.

Fax: (03) 9388 8711

www.bakerdrofenik.com.au

Contact: Paul Baker

Baker Drofenik Architects is a design oriented architectural practice committed to producing modern environmentally appropriate architecture through the adoption of passive low energy building technologies and building and site planning.

Breathe Architecture (Local)

151 Sydney Rd
Brunswick 3056

Phone: (03) 9381 2007

Fax: (03) 9387 5006

Mobile: 0400 502 007

Email: jeremy@breathe.com.au

Web: <http://www.breathe.com.au/>

Contact: Jeremy McLeod Architect BA
Env. Des. B.Arch.(Hons) RAIA

At Breathe we practice sustainable architecture and view nature as being integral to the building's fabric. Our designs are interpreted from a holistic perspective and include environmental principles such as, passive solar, collection and recycling of on-site water, thorough insulation and double glazing, durable materials with low embodied energy and no toxic building products. Where possible we will use natural energy systems that don't generate pollutants or borrow from the earth's resources and future generations. Our buildings are tough and built to last, using robust, low maintenance materials. We provide affordable architecture and design to any budget and not just for those who live in magazines. We manage the design and building process and deliver buildings on time and on budget. Our clients sit back and enjoy the ride.

Construction Queen (Local)

Environmentally Sustainable Building

Contact Paula or Cate

Phone: (03) 9383 1412

Email: cqueen@bigpond.net.au

Web: www.constructionqueen.com

Catherine will call MEFL

Construction Queen offers a range of services from one off consultancy through to total project management. We can assist you in building design and coordination, permits, water conservation, energy efficiency, recycled building materials and low toxicity building materials. We offer a unique blend of expertise in managing mainstream building projects plus experience in the application of sustainable design and building principles.

F2 Design

1 Rodney Pl.

Carlton 3053

Tel: (03) 9662 1534 (also fax no)

Email: f2design@telstra.com

Contact: Tim Adams

Our design goals are to achieve high performance buildings within reasonable budgets while striving to create admirable architecture. The passive attributes of a design are seamlessly integrated with components and fittings like solar energy collection, water harvesting and reuse, and systems including enhanced ventilation or cool cupboards. Selecting materials from sustainable sources is also paramount. In addition to design work our expertise in energy rating and sustainable design is sought by builders, developers, architects and building designers as well as private clients.

Great Design Building Designers

238 Union St

Brunswick 3056

Tel: (03) 9387 7183

Fax: (03) 9387 7186

Mobile: 0418 591 513

Contact: Ruben Figueroa

GDBD has 20 years of experience in sustainable design, producing designs that fit within their surroundings in a practical, no-nonsense way. All our designs incorporate passive and active energy efficient systems without compromising the final design. We pride ourselves on producing work on time. We are a one-stop design company, taking on the project from initial consultation to the final stage of appointing builders.

We work **with you** in a personal and friendly manner, *initial consultation free of charge.*

NEWEDEN – Sustainable Garden Design and Garden Consultant

Tel: (03) 8300 0790

Mobile: 0402 202 894

Email: lounge_lizard@optusnet.com.au

Contact: Diana Cotter

Diana Cotter has 25 years experience designing and planting gardens. She will design gardens to suit your needs and to suit the site. Design considerations include maximising the illusion of space, making the most of rainfall and irrigation, plant choice for soil type, aspect and aesthetic preferences, maximising biodiversity, shade devices and material choices to minimise impact on the environment.

As well as consultation on garden design Diana gives presentations and workshops through Sustainable Gardens Australia on topics including compost and worm farms, water wise gardening and organic vegetable

growing.

S e n s e architecture (Local)

PO Box 2141
Lygon St Nth
Brunswick East VIC 3057
Mobile: 0425 723 735
Email: natasha@sensearchitecture.com.au

Web: www.lygoncycles.com.au

Contact: Paul

Bicycle sales and accessories, professional repairs, all leading brands.

Commuter Cycles
14 Prentice St
Brunswick VIC 3056
9388 1319
www.commutercycles.com.au

Commuter Cycles is a dedicated bike workshop for everyday cyclists. Fixing bikes is what we do. If you love your bike, and ride it to get from A to B, Commuter Cycles is your bike shop.

We offer tailored servicing and repairs, reliable accessories and good value replacement parts. We take great pride in our workmanship and think bright lights, panniers and mudguards are cool. At Commuter Cycles, the workshop is the shop, so you deal with the same people who look after your bike.

Commuter Cycles makes looking after your bike easy by offering courtesy bikes, opening early and closing late, and we're conveniently located next to the Upfield bikepath and Brunswick station.

Ecosmart Electricians

www.ecosmartelectricians.com.au

The National Electrical and Communications Association (NECA) the peak body for Electrical Contractors across Australia has developed a program to train licensed electricians nationally in energy efficient and environmentally friendly electrical products, technology and installations.

To find an eco-smart electrician in your area follow the links on the website.

5-Star Energy Assessors

<p>Accredited Energy Assessors</p> <p>Sustainability Victoria provides a list of accredited energy assessors on their website under Find an accredited energy assessor</p> <p>www.sustainability.vic.gov.au</p>	<p>The 5 Star standard for residential homes ensures that new homes in Victoria are built to incorporate certain environmental features.</p> <p>Compliance with the 5 Star standard requires a FirstRate energy rating from an accredited energy assessor. Ratings look at the building fabric, water savings measures, and the installation of either a rain water tank or a solar hot water service.</p>
<p>Sustainable Renovations</p> <p>http://www.buildingcommission.com.au</p>	<p>As of May 1st 2008 all new renovations are required to be assessed under 5-star regulations.</p> <p>FirstRate programs have not been designed to rate extensions. We recommend you apply Deemed to Satisfy provisions as per the BCA or contact the Building Commission or a registered Building Surveyor for more information.</p>

Fridge Seals
